

Citrix Platinum Partner

Tri-Delta Resources has the most Citrix-certified salespeople and technical engineers and is the only Citrix Certified Integration Architect (CCIA) in Western NY. Many of the largest Citrix users in upstate NY depend on us for Citrix Application Delivery and Hardware/Software and Integration Services. Our services include Citrix server farm implementations; proof-of-concept implementations; Citrix farm audits; complementary hardware/software installs; and on-going level-two support.

Virtualization

Tri-Delta Resources offers virtualization planning and implementation services. We are fully experienced with VMWare, Citrix XenServer, and Microsoft Hyper-V platforms.

Storage Solutions

Tri-Delta Resources provides expert storage planning and implementation services. We work with LeftHand, DataCore, Equallogic, IBM, and EMC and will help you select the correct storage and SAN products and services to meet your needs.

Managed Services

Tri-Delta's Manage IT Services program provides you with everything your company needs to handle your IT needs, both today and into the future. Our programs provide you with an extensive and experienced team of technology experts ranging from your Chief Technology Officer to Systems Engineers to Help Desk Technicians needed to support your business. You are covered for on-site service, remote service and priority emergency service to say nothing of the long-term planning and guidance you will receive. We provide these resources to you in a very simple, low-cost, fixed-price agreement that is usually half the cost of hiring a full time employee without the risks that entails. In addition, there are no upfront costs and no long term contracts.

IBM iSeries

Tri-Delta Resources has offered 24/7 on-site iSeries hardware and peripheral maintenance services for over 20 years. Our expert engineers provide on-site and remote operating system support, disaster recovery services, and perform OS upgrades and performance tuning services.

Maintenance

Tri-Delta Resources is the largest 3rd-party provider of IBM AS/400 and RS/6000 services in Upstate NY. Our on-site field engineers have proven expertise and provide 24/7 coverage. Additionally, we support Intel servers and peripherals, including those from IBM and HP, and we stock the largest parts inventory in Western NY.

Disaster Recovery

Tri-Delta Resources is the value leader in Disaster Recovery services. We have the facilities, equipment, and expertise in both tape-based and high-availability disaster recovery services for Windows and iSeries platforms. We offer short-term, flexible contracts that can save you 50% or more compared to other DR providers.

Microsoft Services

With years of experience in Active Directory design, migration, and optimization for a diverse client base in upstate NY, Tri-Delta Resources has just the right combination of knowledge and experience to get the job done. Whether you are looking for a clean installation, a migration, or a version upgrade Tri-Delta has the talent to get the job done. Combining Tri-Delta's Disaster Recovery practice with our exchange practice we are best prepared to help with your DR/BCP planning and testing.
